PROFILE

I am open to innovation and actively keep up with the latest technologies. Currently, I am focusing on enhancing my iOS development skills by building small-scale applications and hands-on projects.

EDUCATION

- **Yeditepe University** 2019 - 2024
Faculty of Computer and Information Sciences
Bachelor's Program in Software Development
CGPA: 3.00

WORK EXPERIENCE

- **Esit Elektronik A.Ş.** November 2023 - February 2024
Mobile Developer
Part-time
Contributed to improving the WindCon mobile app by resolving bugs and developing new features, resulting in greater stability and a better user experience.
- **TGS Yer Hizmetleri A.Ş.** July 2023 - August 2023
Backend Developer
Internship
I developed a comprehensive MSSQL database and designed a Windows Form application in C#, streamlining data management and improving user interface efficiency.
- **Rakam Teknoloji A.Ş.** July 2022 - August 2022
Frontend Developer
Internship
Integrated multimedia components such as images and videos into the website to enhance content quality and increase user interaction and retention.

PROJECTS

- **FitCal iOS App (Graduation Project)** March 2024 - June 2024
The application calculates the amount of calories the user should consume daily with the information it receives from the user. It also recommends meals according to daily calories. In this way, it helps the user to gain or lose weight.
